**4 reversible grill grates**  
(foldable).

These can be fitted with  
different food of your choice.

...specially  
for  
chicken  
and  
fish

Two movable cases, each  
equipped with **Poly-  
Infrared-Heater**elements.

**Energy saving**  
while an effectively  
**high heat output,**  
3.600 watt per case.

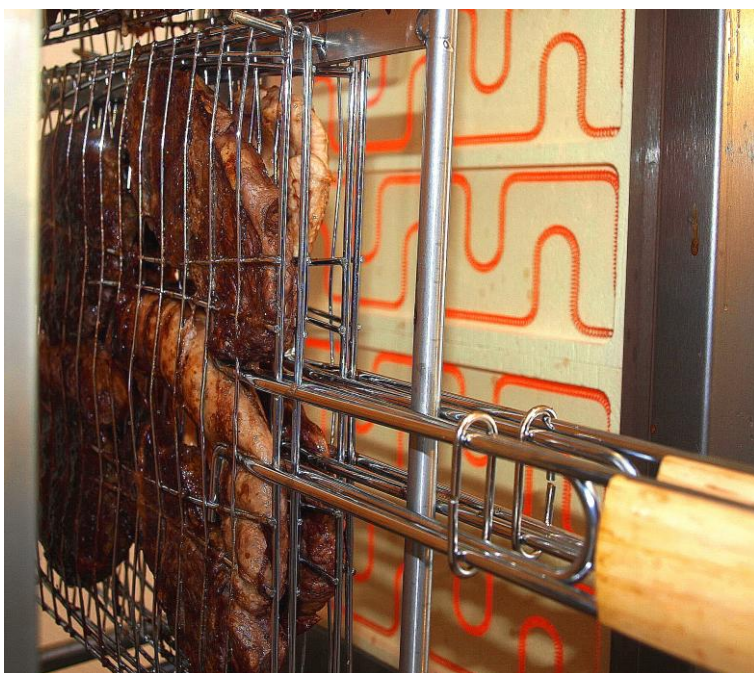

For simple and  
quick cleaning:

- \* Ceran-Glass cover  
for the Poly-Infrared-  
Heater elements
- \* removable fat drawer

**Dimensions per grill -  
grates: 28 x 28 cm**

## **The simple use:**

Fill the fat drawer with some clear water.

Place any barbecue on the grill grates. Close the grill grates and mount them centrally into the „Pollaplon“-Grill.

Slide the respective case of the „Pollaplon“-Grill near to the barbecue and turn on the Poly-Infrared-Heater elements to the desired heat level.

After the food has reached the desired cooking point, turn out the grill-grates and the barbecue can be served.

**Grill gently and effortlessly on 4 grill-grates at the same time different kinds of barbecue food:**

| <b>size (w x d x h)</b> | <b>KW</b> | <b>Volt - Hz</b> |
|-------------------------|-----------|------------------|
| 660 x 500 x 980 mm      | 7,2       | 400V ~50/60 Hz   |
